

Mentorship Program

Message

Dear alumni,

Take a moment to think back to the time you were a student yourself. Wouldn't it be great if there would have been someone who could help you achieve your goals and guide through the process? We believe that a mentorship program involving current CEMSies and alumni can be a great opportunity to enhance the learning experience for both sides and keep our CEMS community active.

Because of that we have developed CEMS VSE Mentorship program, that we hope to bring to life with your help. As of now we have 30 interested students who are looking forward to starting their mentee journey and benefiting from your experience. Each student had indicated his/her preference for the field of desired mentorship and based on your involvement, we are committed to creating the best possible pairs to provide an enriching experience for both you and your future mentees. We very much rely on your cooperation and hope that you are as excited as we are!

Organization

The program consists of two stages: Pre-matching and Matching

The first stage, which already started by understanding the interest in the initiative from the students' side, will continue in the form of getting responses from you. We look forward to learning about your willingness to participate as well as finding out the areas you would be willing to mentor for. We therefore ask you to fill in the short survey below to register for the program and provide us with all the information we would need to use in the matching stage. The deadline for the registration would be **November 25th midnight**.

Registration: <https://bit.ly/3CJWW2k>

After the deadline for the registration is over, we will embark on the second round and analyze the responses. Based on the number of registered mentors we will decide on the matching concept. As of now we are planning on giving the students the opportunity to choose their mentors. Each mentee will indicate up to 2-3 mentors he/she would like to have and in case of any conflict the case will be handled individually with the possibility of your involvement. The information about your mentees will be communicated to you in the mid December. Each mentor will get one mentee. The form of communication as well as the frequency is up to each pair. The program will officially start in January and its duration will depend on participants.
